

Performance & Goals

Effectively managing employee performance has never been more critical. Faced with fierce competition, shrinking budgets, and heavy price pressures, businesses must execute with razor-sharp focus or be left behind.

To succeed, organizations need a workforce that clearly understands the organization's strategic objectives and can quickly adjust course as business needs evolve.

A powerful Performance & Goals solution enables managers to align employee activities with organizational strategy and monitor performance - providing subordinates with continuous, meaningful feedback and coaching.

Part of SuccessFactors BizX Suite, **SuccessFactors Performance & Goals is the leading Employee Performance Management solution** (Gartner, 2011 Magic Quadrant for Employee Performance Management Software) - providing an intuitive user experience and innovative capabilities such as Team Rater, Calibration, LegalCheck, Goal Library, and Assistants for Writing and Coaching.

These innovations help ensure aligned, clear goals and an objective, accurate assessment of talent. SuccessFactors' research shows that companies who leverage these capabilities outperform their peers, and even the broad market. In fact, SuccessFactors customers have outperformed the NASDAQ index by 2X, and the DOW/S&P indices by 8x.
